Our climate is in a dramatic state of flux. Weather patterns are changing and therefore the way we manage our gardens. This book contains practical ideas, plans and inspiration for beautiful, sustainable and waterwise gardens. ARE YOU READY TO MAKE CHANGE HAPPEN? Originally inspired by a desire to leave her daughters a lasting legacy, WE the Change emerged as an extraordinary roadmap for anyone yearning to transform their life, organization, or community. Merging her life-changing experience walking El Camino de Santiago, a 500-mile medieval footpath across Spain, with thirty years as an organizational change and leadership consultant, Shannon Wallis offers readers an intimate and powerful, yet practical, way to authentically create what they want. WE the Change encourages and guides you, step-by-step, through the challenging terrain that every woman faces when she's trying to launch something new. Through each chapter you will: Uncover and deepen your authentic vision Discover specifically what's standing in your way Learn practical tools to overcome obstacles Create a potent support system that keeps you moving forward IT'S TIME TO MAKE THE IMPOSSIBLE POSSIBLE! A guide for mining the imagination to find powerful new ways to succeed. We need imagination now more than ever—to find new opportunities, rethink our businesses, and discover paths to growth. Yet too many companies have lost their ability to imagine. What is this mysterious capacity? How does imagination work? And how can organizations keep it alive and harness it in a systematic way? The Imagination Machine answers these questions and more. Drawing on the experience and insights of CEOs across several industries, as well as lessons from neuroscience, computer science, psychology, and philosophy, Martin Reeves of Boston Consulting Group's Henderson Institute and Jack Fuller, an expert in neuroscience, provide a fascinating look into the mechanics of imagination and lay out a process for creating ideas and bringing them to life: The Seduction: How to open yourself up to surprises The Idea: How to generate new ideas The Collision: How to rethink your idea based on real-world feedback The Epidemic: How to spread an evolving idea to others The New Ordinary: How to turn your novel idea into an accepted reality The Encore: How to repeat the process—again and again. Imagination is one of the least understood but most crucial ingredients of success. It's what makes the difference between an incremental change and the kinds of pivots and paradigm shifts that are essential to transformation—especially during a crisis. The Imagination Machine is the guide you need to demystify and operationalize this powerful human capacity, to inject new life into your company, and to head into unknown territory with the right tools at your disposal. Just like the royal sisters Anna and Elsa, anyone can throw a "Frozen Fever" birthday party with the advice and step-by-step instructions in this beautifully illustrated book. Everything you need to create the party of the year is included here - from invitations and decorations to food, table settings, and games. This storehouse of sales-generating ideas show small-to-medium retailers how to attract and keep new customers. From eye-catching window displays and in-store promotions to marketing research, advertising and publicity, it provides strategies and techniques for becoming more aggressive. Everyone knows the importance of good marketing, but few companies consistently create successful campaigns. Spending marketing dollars wisely, especially now when the economy is in a downturn, is more important than ever. Based on over forty years of combined marketing experience, consultants Sally Beamer and Gerardo Tabío will teach you a solid marketing strategy to develop innovative ideas targeted to the interests and wants of your customers. Using a methodology that they have honed with both large corporations-like Coca Cola, Volkswagen, and Wendy's-and small, locally owned businesses, such as car dealerships, jewelry stores, and radio stations, the authors guide you step by step to create a marketing plan that will produce positive, measurable results. From their wealth of experience, Beamer and Tabío use many entertaining and enlightening anecdotes so that you can immediately understand and implement their advice. Their simple formula allows you to quickly generate a lengthy list of diverse, novel, and relevant ideas, while holding to a high standard. Then you will learn how to troubleshoot and refine this list to find the best ideas to reach your target customers and add to the bottom line. Using the ingenious approach taught in this book, companies both large and small will be able to develop customized, novel ideas that meet specific marketing objectives and vastly improve the likelihood of a campaign's success. Gerardo V. Tabío (Bixby, OK), president and founder of Creative Resources Group, has been consulting with a broad range of organizations for more than twenty years. Among his clients are Turner Entertainment, TV Guide, America Online, Tommy Hilfiger, Toyota Motor Sales, Tyson Foods, CBS Radio, and many more. Sally Beamer (Atlanta, GA), a partner at Creative Resources Group, has more than fifteen years experience consulting for such major corporations as Wendy's, Coca Cola, CBS Radio, Cox Radio, Pizza Hut, the YMCA, and Clear Channel Communications, among others. This book includes some amazing ideas for creating mason jars crafts. Mason jars can be used for so many things. Drinking glasses, soap dispensers, pen, and pencil containers. From the kitchen windowsill to your back porch, you'll be inspired to pep up your home with original crafts, like: - Pendant lighting - Reed diffuser - Sprouting jars - Homespun soap dispenser "How to Create Content Ideas and Videos" is a book that gives advice and strategies for coming up with content ideas as well as tips for making videos that are interesting and effective. Overall, it's meant to help people make high-quality, interesting content that will appeal to their intended audience. Whether you're just starting out with content marketing or you've been using the same approach for a while, it never hurts to revisit your content strategy plan - to make sure it's up-to-date, innovative, and engaging for your prospects and customers, no matter when or how they intend to buy. If you are ready to quit questioning whether content marketing can work for you and your business, as well as HOW to make it work, this book is for you. This is an easy-to-read marketing powerhouse that is packed with content marketing ideas, principles, and years of expertise, bundled up into a single, profoundly simple and actionable, plan. Proposes that ideas are crucial to the success of organizations, and provides hands-on methods to make them central to the organization's development and operations. The Killer Questions Your Company Should Be Asking Generating and executing great ideas is the key to staying ahead in a rapidly changing world. It seems so basic. Why is it so hard to actually get right? According to innovation expert Phil McKinney, the real problem is that we're teaching people to ask the wrong questions about their businesses--or none at all. There has to be a better way. In Beyond the Obvious, McKinney will help you use his proven FIRE (Focus, Ideation, Rank, Execution) Method to dig deeper and get back to asking the right questions--the ones all companies must ask to survive. Full of real-world examples, this book will change the way you operate, innovate, and create, and it all begins with battle-tested questions Phil has gathered on note cards throughout his career. Shared for the first time here, these "Killer Questions" include: What are the rules and assumptions my industry operates under? What if the opposite were true? What will be the buying criteria used by my customer in 5 years? What are my unshakable beliefs about what my customers want? Who uses my product in ways I never anticipated? These questions will reframe the way you see your products, your customers, and the way the two interact. Whether you're a company of thousands or a lean startup, Beyond the Obvious will give you the skills and easy-to-follow plan you need to make both the revolutionary changes and nuanced tweaks required for success. Praise for Beyond the Obvious "Human beings are creatures of habit, so getting ourselves and our teams to think beyond the obvious is a challenge we face all the time. Phil McKinney is an innovation expert, and his killer questions and hit-the-spot anecdotes provide a great way to get out in front of opportunities we otherwise won't see." --Geoffrey Moore, author of Crossing the Chasm and Escape Velocity "I've always believed that asking the right questions is the essence of design. Phil McKinney proves that

point with this wonderful set of killer questions that will jumpstart-or greatly enhance- your innovation efforts." --B. Joseph Pine II, co-author, *The Experience Economy & Infinite Possibility*. "Product Innovation is a prerequisite to building great brands. Phil's questions are a prerequisite to building innovative products." --Satjiv S. Chahil, former global marketing chief, Apple There has always been emphasis placed on personal, social and emotional education, particularly in the Early Years. Emotionally resilient children are well equipped to deal with the challenges they may face, and this resilience reflects a range of skills, strengths and characteristics acquired and refined throughout one's life. Over the last ten years, Jillian Harrison-Longworth has planned and delivered a wide range of short but focused activities that can be used to develop aspects of emotional resilience across five key areas: confidence, self-image, self-esteem, perseverance and cooperation. This book contains refined activities for each of these crucial sections that most commonly arise in schools and settings. 50 Fantastic Ideas for Developing Emotional Resilience provides short but snappy practical activities as starting points for practitioners to develop emotional resilience in the children they work with. In this book, we'll address issues related to the seemingly 'out of control' spread of some online stories and videos. From Gagnam Style to the Ice Bucket Challenge ... How come some stories take root and others don't? What makes a piece of content go viral? How does the winning idea come about? How does it spread? Is it a replicable phenomenon? We will analyze together the principles that push users to press the 'share' button, the emotional levers to activate and how to generate word of mouth on the Net. A book for all those who want to discover the principles of emotional persuasion on the Internet. Suitable for web copywriters, social media managers, entrepreneurs, creatives and all those who are facing for the first time to this fascinating discipline. In a new, completely revised and updated edition of his 1999 classic 1001 Ideas to Create Retail Excitement, public relations and marketing guru Edgar Falk shows small, medium, and large business owners how to make the most of retail opportunities in any economic environment, and teaches all business owners how to think big in the face of growing competition and consumer insecurity. In our ever-changing economy, Falk's strategies are an absolute necessity for survival and success. Here, he offers a veritable encyclopedia of practical suggestions that show small- to medium-sized retailers how to attract new customers, then goes on to offer solid, time-tested advice on how to keep them coming back, over and over again. From proven-successful ideas for eye-catching window displays, in-store promotions, and special events to tested strategies for market research and publicity, this guide provides everything the small business owner needs to become more aggressive and effective in pulling in customers and fending off competition. In 2052: A Global Forecast for the Next 40 Years (Chelsea Green, 2012), Jorgen Randers draws on his own experience in the sustainability area, global forecasting tools, and the predictions - included in the book as 'Glimpses' - of more than thirty thought leaders to guide us through the future he feels is most likely to emerge towards the middle of the century. At a meeting of 25 of the 'Glimpse' authors in Cambridge in October 2013, each participant was invited to present a 'great idea' (or thought, or development or fact) that they believed could improve on world developments over the next forty years. Disrupting the Future - Great ideas for Creating a Much Better Future is the result of this process and is a remarkable collection of ideas and proposals by a diverse set of thought-leaders, each of which has responded in their own creative way to Jorgen Randers' concluding challenge in 2052: 'Please help me make my forecast wrong. Together we could create a much better world.' #1 NEW YORK TIMES BEST SELLER • At last, a book that shows you how to build—design—a life you can thrive in, at any age or stage Designers create worlds and solve problems using design thinking. Look around your office or home—at the tablet or smartphone you may be holding or the chair you are sitting in. Everything in our lives was designed by someone. And every design starts with a problem that a designer or team of designers seeks to solve. In this book, Bill Burnett and Dave Evans show us how design thinking can help us create a life that is both meaningful and fulfilling, regardless of who or where we are, what we do or have done for a living, or how young or old we are. The same design thinking responsible for amazing technology, products, and spaces can be used to design and build your career and your life, a life of fulfillment and joy, constantly creative and productive, one that always holds the possibility of surprise. Whether you are making a birdhouse for your backyard or giving it to someone as a gift, nesting boxes are a great way to provide sanctuary and shelter to the birds that inhabit your area. Creating a solid, impenetrable birdhouse means using untreated wood, galvanized screws, and wood glue during construction. Also, providing the birds with a safe, predator-free environment means setting up the birdhouse in a high, difficult-to-reach place. A fascinating deep dive on innovation from the New York Times bestselling author of *How We Got To Now* and *Unexpected Life* The printing press, the pencil, the flush toilet, the battery--these are all great ideas. But where do they come from? What kind of environment breeds them? What sparks the flash of brilliance? How do we generate the breakthrough technologies that push forward our lives, our society, our culture? Steven Johnson's answers are revelatory as he identifies the seven key patterns behind genuine innovation, and traces them across time and disciplines. From Darwin and Freud to the halls of Google and Apple, Johnson investigates the innovation hubs throughout modern time and pulls out the approaches and commonalities that seem to appear at moments of originality. Shows employees at any level of an organisation how to come up with new ideas and then how to develop them. People who know how to harness their own creative juices can tap into their creativity and believe in the vast powers of their own ideas will become successful in virtually everything they do. Just as we learn other skills -- to read, to write, and to do math -- it is necessary to train ourselves to properly harness the power of our brains in order to think originally, brainstorm, and utilize that huge creative power. No matter what you do for a living or where your personal interests lie, you can become more successful and achieve greater heights if you're willing to "pop the top on your brain" and learn how to think more creatively as you confront life's trials and tribulations. Once you begin to discover how to generate incredible ideas, your true success will come from learning how to transform those ideas into reality. Brain Storm is your personal roadmap to a better understanding of creative thinking and the brainstorming process. With this book, as an individual or in a group setting, you can begin generating ideas with the power to change the world around you. Jason R. Rich will teach you the basics of how to produce many ideas, evaluate each of them, and pick the best one. You will learn directly from fascinating people who have already achieved incredible success as a direct result of their ability to think creatively. Within a short period of time, you too will be generating new ideas, building upon other people's ideas, using your brain to find creative solutions to problems and challenges, and coming up with ideas that will improve your personal, professional, and financial life. Book jacket. The unusual ambition of this volume is to engage scientists, historians, and philosophers in a common quest to delineate the structure of the creative thinking responsible for major advances in physical theory. The topic does not fit anyone discipline's proprietary interests, and can only be pursued cooperatively. This volume was conceived in the hope that the importance of learning

something general about how theories are developed and what makes the difference between productive and abortive directions of theoretical inquiry could overcome well-known barriers to such cooperation. The volume originated in a conference held at the University of North Carolina, Greensboro in 1988, as an installment of the annual Greensboro Symposium in Philosophy. Most of the papers descend from papers presented on that occasion. The authors are well known in their own disciplines, but should be identified to the wider audience for interdisciplinary work in science studies. Rafael Sorkin, of Syracuse University, and Don Page, of the University of Alberta, are theoretical physicists who have done research in quantum gravity and cosmology. John Stachel, a physicist at Boston University, is widely known as the Director of the Einstein Project and editor of Einstein's papers. William Harper, a historian of science and philosopher at the University of Western Ontario, is a Newton scholar and specialist in decision theory.

How to Create Better Ideas gives insight in the design process and how to create better ideas with examples ranging from Precious Plastic to the Sheltersuit. It is divided into two sections: the right and left brain. The first part analyses the general design process. The second part introduces six self-developed methods that teach you to create more and better visual ideas relevant for all design disciplines. It is a book for anyone who would like to learn and understand design more in-depth. For anyone who wants to know the answers to these questions: what is design, what is creativity, what mentality and conditions are needed to guarantee a productive design process. For design educators and students, and for those working with designers as a client or commissioner. But definitely also for design professionals that want to boost their ability to create visual ideas. How companies can significantly boost ethics and morale. Shares a wealth of effective ideas used around the country, from hiring and firing to compensation and communication. Includes an extensive bonus section on writing an effective corporate ethics code. "I'm a democratic design snob. I see it as my mission to help stamp out boring, unimaginative interiors. But I also love people, having fun, and what I do for a living. I think a fabulously styled place is achievable by everyone. Think of me as your decorating wingman." Thom Filicia, whose one-of-a-kind makeover genius gained national attention through his starring roles on *Queer Eye for the Straight Guy* and *Dress My Nest*, offers the ultimate handbook for creating gorgeous interiors that showcase your unique personal style. This twenty-year project is an artist's book that juxtaposes quotations and images from hundreds of artists and writers with the author's own thoughts. Using Adobe InDesign® for composition and layout, the author has structured the book to show analogies among disparate texts and images. There have always been gaps, but a focus on the space between things is virtually synonymous with modernity. Often characterized as a break, modernity is a story of gaps. Around 1900, many independent strands of gap thought and experience interacted and interwove more intricately. Atoms, textiles, theories, women, Jews, collage, poetry, patchwork, and music figure prominently in these strands. The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience, rabbinic thinking, modern literary criticism, art, popular culture, and the structure of matter. This book explores many subjects, but it is ultimately a work of art. **GET CREATIVE!** This new book celebrates hands-on creativity--and offers a real treasure chest of small crafts that even beginners can easily complete. All these projects are practical, pretty, and fun to make. Give a gift from the heart and the hand! This charming collection includes triangular Matryoshka dolls, an ornate napkin with individual pouches for each piece of cutlery, "A to Z" bookends, a folding picture album, sweet bookmarks with a small mouse face peering out, a stitched green eyeglass case, and embellished bags and wrapping. How to transform your garden, patio or balcony into a stylish living area. Whether you have a garden, patio or balcony, this innovative and practical book will open up a whole new area of decorating. Forget about ground cover and seasonal planting and instead, transform your outdoor space with paint, fabric, tiles and a host of other materials. While interior decorating has become increasingly sophisticated, often the clever ideas and effects stop at the garden door. "The Outdoor Decorator shows you that when it comes to decorating, the sky's the limit! Step-by-step, Kevin McCloud covers all the elements that can transform an outdoor space - from walls, floors and fabrics, to furniture, lighting and accessories. Why not paint your garden walls in spectacular Mediterranean colours, install Cape Cod beach house decking, or rig up a pretty canopy of simple cotton fabric on your balcony? The emphasis is on quick, inexpensive projects that will suit even limited budgets, and will bring a unique look to your home. The United States is the global leader in higher education, but this was not always the case and may not remain so. William Kirby examines sources of—and threats to—US higher education supremacy and charts the rise of Chinese competitors. Yet Chinese institutions also face problems, including a state that challenges the commitment to free inquiry.
