[Spanish student workbook] to be used with the English student textbook; may be used individually or as a source for blackline masters. Delivered at the turn of the twentieth century, Riegl's groundbreaking lectures called for the Baroque period to be judged by its own rules and not merely as a period of decline. As to Riegl (1858-1905) was one of the greatest modern art historians. The most important member of the so-called "Vienna School," Riegl developed a highly refined technique of visual or formal analysis, as opposed to the iconological method with its emphasis on decoding motifs through recourse to texts. Riegl also pioneered understanding of the changing role of the viewer, the significance of non-high art objects or what would now be called visual or material culture, and theories of art and art history, including his much-debated neologism *Kunstwollen* (the will of art). At last, his *Historical Grammar of the Visual Arts*, which brings together the diverse threads of his thought, is available to an English-language audience, in a superlative translation by Jacqueline E. Jung. In one of the earliest and perhaps the most brilliant of all art historical "surveys," Riegl addresses the different

visual arts within a sweeping conception of the history of culture. His account derives, from Hegelian models but decisively opens onto alternative pathways that continue to complicate attempts to reduce art merely to the artist's intentions or its social and historical functions.
